## DETAILED ACTION

The examiner spoke with applicant's representative Kevin McKinley on May 17, 2004 by telephone regarding applicant's remarks filed January 2, 2004 that state the following: "A Supplemental Preliminary Amendment is forthcoming. The Examiner is requested to defer examination until receipt of the Preliminary Amendment." It was agreed that the examiner would make an office action with a double patenting rejection if the preliminary amendment was not received by May 26, 2004.

### ***Double Patenting***

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-18 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-18 of copending Application No. 10/309,164. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented. However, application serial number 10/309,164 will be issued as U.S. Patent 6,746,123 on June 8, 2004.
